

Paper 2 Exam Topics – One Example Per Option

Students need to be prepared to write about the topics/content, the three approaches, research methods and ethics.

Abnormal Psychology – Etiologies of Psychology Disorders	
General	List of possible exam topics
Topic & Content	Etiologies of disorders
	Explanations of disorders
	Prevalence of disorders
Approaches	Biological approach to understanding etiologies of disorders
	Cognitive approach to understanding etiologies of disorders
	Sociocultural approach to understanding etiologies of disorders
Methods/Ethics	Research methods used to study etiologies of disorders
	Ethical considerations relevant to studies on etiologies of disorders
	Human Relationships – Personal Relationships
General	List of possible exam topics
Topic & Content	Personal relationships
	Formation of personal relationships
	Role of communication
	Explanations for why relationships change or end
Approaches	Biological approach to understanding personal relationships
	Cognitive approach to understanding personal relationships
	Sociocultural approach to understanding personal relationships
Methods/Ethics	Research methods used to study personal relationships
	Ethical considerations relevant to studies on personal relationships
	Health Psychology – Health Problems
General	Health Psychology – Health Problems List of possible exam topics
	List of possible exam topics
General Topic & Content	List of possible exam topics • Health problems
	 List of possible exam topics Health problems Explanations of health problems(s)
Topic & Content	List of possible exam topics Health problems Explanations of health problems(s) Prevalence rates of health problem(s)
	List of possible exam topics Health problems Explanations of health problems(s) Prevalence rates of health problem(s) Biological approach to understanding health problems.
Topic & Content	List of possible exam topics Health problems Explanations of health problems(s) Prevalence rates of health problem(s) Biological approach to understanding health problems. Cognitive approach to understanding health problems.
Topic & Content Approaches	List of possible exam topics Health problems Explanations of health problems(s) Prevalence rates of health problem(s) Biological approach to understanding health problems. Cognitive approach to understanding health problems. Sociocultural approach to understanding health problems.
Topic & Content	List of possible exam topics Health problems Explanations of health problems(s) Prevalence rates of health problem(s) Biological approach to understanding health problems. Cognitive approach to understanding health problems.
Topic & Content Approaches Methods/Ethics	List of possible exam topics Health problems Explanations of health problems(s) Prevalence rates of health problem(s) Biological approach to understanding health problems. Cognitive approach to understanding health problems. Sociocultural approach to understanding health problems. Research methods used to study health problems.
Topic & Content Approaches Methods/Ethics	List of possible exam topics Health problems Explanations of health problems(s) Prevalence rates of health problem(s) Biological approach to understanding health problems. Cognitive approach to understanding health problems. Sociocultural approach to understanding health problems. Research methods used to study health problems. Ethical considerations relevant to studies on health problems.
Topic & Content Approaches Methods/Ethics	List of possible exam topics Health problems Explanations of health problems(s) Prevalence rates of health problem(s) Biological approach to understanding health problems. Cognitive approach to understanding health problems. Sociocultural approach to understanding health problems. Research methods used to study health problems. Ethical considerations relevant to studies on health problems.
Topic & Content Approaches Methods/Ethics D General	List of possible exam topics Health problems Explanations of health problems(s) Prevalence rates of health problem(s) Biological approach to understanding health problems. Cognitive approach to understanding health problems. Sociocultural approach to understanding health problems. Research methods used to study health problems. Ethical considerations relevant to studies on health problems. evelopmental Psychology – Developing as a Learner List of possible exam topics
Topic & Content Approaches Methods/Ethics D General	List of possible exam topics Health problems Explanations of health problems(s) Prevalence rates of health problem(s) Biological approach to understanding health problems. Cognitive approach to understanding health problems. Sociocultural approach to understanding health problems. Research methods used to study health problems. Ethical considerations relevant to studies on health problems. Evelopmental Psychology – Developing as a Learner List of possible exam topics Developing as a learner
Topic & Content Approaches Methods/Ethics General Topic & Content	List of possible exam topics Health problems Explanations of health problems(s) Prevalence rates of health problem(s) Biological approach to understanding health problems. Cognitive approach to understanding health problems. Sociocultural approach to understanding health problems. Research methods used to study health problems. Ethical considerations relevant to studies on health problems. Ethical considerations relevant to studies on health problems. Evelopmental Psychology – Developing as a Learner List of possible exam topics Developing as a learner Cognitive development Brain development
Topic & Content Approaches Methods/Ethics D General	List of possible exam topics Health problems Explanations of health problems(s) Prevalence rates of health problem(s) Biological approach to understanding health problems. Cognitive approach to understanding health problems. Sociocultural approach to understanding health problems. Research methods used to study health problems. Ethical considerations relevant to studies on health problems. Evelopmental Psychology – Developing as a Learner List of possible exam topics Developing as a learner Cognitive development Brain development Biological approach to understanding developing as a learner
Topic & Content Approaches Methods/Ethics General Topic & Content	List of possible exam topics Health problems Explanations of health problems(s) Prevalence rates of health problem(s) Biological approach to understanding health problems. Cognitive approach to understanding health problems. Sociocultural approach to understanding health problems. Research methods used to study health problems. Ethical considerations relevant to studies on health problems. Evelopmental Psychology – Developing as a Learner List of possible exam topics Developing as a learner Cognitive development Brain development Biological approach to understanding developing as a learner Cognitive approach to understanding developing as a learner
Topic & Content Approaches Methods/Ethics General Topic & Content	List of possible exam topics Health problems Explanations of health problems(s) Prevalence rates of health problem(s) Biological approach to understanding health problems. Cognitive approach to understanding health problems. Sociocultural approach to understanding health problems. Research methods used to study health problems. Ethical considerations relevant to studies on health problems. Evelopmental Psychology – Developing as a Learner List of possible exam topics Developing as a learner Cognitive development Brain development Biological approach to understanding developing as a learner Cognitive approach to understanding developing as a learner Sociocultural approach to understanding developing as a learner
Topic & Content Approaches Methods/Ethics General Topic & Content Approaches	List of possible exam topics Health problems Explanations of health problems(s) Prevalence rates of health problem(s) Biological approach to understanding health problems. Cognitive approach to understanding health problems. Sociocultural approach to understanding health problems. Research methods used to study health problems. Ethical considerations relevant to studies on health problems. Evelopmental Psychology – Developing as a Learner List of possible exam topics Developing as a learner Cognitive development Brain development Biological approach to understanding developing as a learner Cognitive approach to understanding developing as a learner Sociocultural approach to understanding developing as a learner
